# EUROTRON 315 PLUS / 315 XL

Circular saws for wood

- Especially designed to cut any kind of wood panels up to 83 mm high (3.2").
- Reinforced chassis with folding blade guard, fully covering the blade.
- Transparent Polycarbonate blade screen, to keep your eyes on the cutting line.
- Very easy to set up. Easy to move.
- Legs reinforcing brackets. Robust legs can be anchored on the floor.
- CE certification, issued by the National Machinery Verification Centre, belonging to the Institute of Labour and Safety at Work.

# AMBAR 200

Portable tiles saw

ersatile, handy, professional and easy to use and maintain

- The water tub can be removed for an easier cleaning.
- Easy, quick and reliable cutting solutions for the professional tiler. It can perform both, straight and 45° cuts.
- Removable legs to facilitate transportation.
- Cuts all kind of materials up to 35 mm (1.3") depth (tiles, terrazzo, bricks, marble, gres, porcelanic, etc.), with its Ø200 mm (8") diamond blade and a well dimensioned 1.5 Hp motor.

## FEATURES AND BENEFITS OF THE EUROTRON RANGE

Articulated transparent polycarbonate blade guard.

Start up and cutting with a pusher.

Pusher for safe cutting.

Ruler.

Widia blade.

CE certification No.039701ETM0110039903 by a third party laboratory.

Extension support table (Standard).

Two pieces per pallet.

NEWS

# VENUS 125 Polypanel

Structural Insulated Panels saw

Structural Insulated panels (SIP), as expanded polyurethane (PUR), polystyren panels (EPS), or rock wool panels, are being increasingly used in construction. Their high insulating and fire-resistant properties add to the lightweight of these materials and their attractive and varied finishings.

However, due to their size, they are cumbersome and difficult to handle. They are typically cut with powertools.

SIMA launches the only cutting table in the market especially designed to cut SIP panel: expanded Polyurethane (PUR) foam, Polystyren foam panels (EPS), and rock wool panels,

A lightweight affordable machine... with the performance of a stationary machine.

FEATURES AND BENEFITS OF THE VENUS 125 POLYPANEL

Special model, adapted for cutting polyurethane insulating panels.

45° Tilting bridge.

Folding safety guard.

Toothed belt operated feed.

Ø 350 mm WIDIA blade included.

Set of side support with 2 clamps.

Roller supply feed (Opcional).

Set of 2 handles.

# HANDY 350

Dry cutting

**HANDY** is a rugged but lightweight masonry saw, intended for high performance dry cutting.

An efficient dust collection system, assisted by a vacuum cleaner, absorbs up to 90% of the cutting dust.

This feature makes it the perfect machine for indoors cutting works, refurbishing works, etc.

The machine also features a water circulation system for wet cutting too.

Dry cutting

Wet cutting
